# Notes to the Consolidated Interim Financial Statements

---

## 1. Reporting entity

African Dawn Capital Limited is domiciled in the Republic of South Africa. The unaudited consolidated interim financial statements for the six months ended 31 August 2021 comprise the results of the Company and its subsidiaries ("the Group").

## 2. Basis of preparation

The consolidated interim financial statements have been prepared using the historical cost convention, as modified for certain items measured at fair value.

The consolidated interim financial statements have been prepared in accordance with:

- International Financial Reporting Standards (IFRS);
- IAS 34 - Interim Financial Reporting;
- The requirements of the South African Companies Act (Act No 71 of 2008), as amended,
- The JSE Listings Requirements;
- The Financial Pronouncements as issued by Financial Reporting Standards Council.

These consolidated interim financial statements have not been audited or reviewed by the company's auditors.

These consolidated interim financial statements should be read in conjunction with the annual financial statements for the year ended 28 February 2021.

## 3. Approval

The consolidated interim financial statements were prepared by Dylan Kohler Professional Accountant (SA) and supervised by the chief financial officer, G Hope CA (SA). They were approved by the Board on 29 November 2021.

## 4. Significant accounting policies

The accounting policies adopted in the preparation of the consolidated interim financial information are consistent with those applied in the consolidated annual financial statements for the year ended 28 February 2021. For a full list of standards and interpretations, which have and have not been adopted, refer to the 28 February 2021 consolidated annual financial statements.

## 5. Significant judgements and accounting estimates

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Except as described below, in preparing these consolidated financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied in the consolidated financial statements for the year ended 28 February 2021 (refer to note 1.18 of the consolidated annual financial statements for the year ended 28 February 2021).

## 6. Events after the reporting period

There were no events after the year end and before the reporting date that affect the financial statements.

# The group entered into a loan agreement with Caleo during the current year (refer to Note 13). As part of the loan agreement, African Dawn was to issue share capital in settlement of the origination fees and transaction costs relating to the provision of this funding. This works out to the issue of 12,729,383 new shares. The shares were issued at 14c each which is the 30-day weighted average traded price measured prior to the transactions. The shares were issued in tranches of 4,936,924 shares on 17 July 2020 and 7,792,459 on 27 November 2020 which coincides with the draw down dates of the loan received.

This arrangement is accounted for as an equity settled share-based payment in accordance with IFRS 2. The equity instruments granted vested upon the condition that the funding has been provided per the agreement, which it has, and the full value of the share-based payment was recognised shortly after grant date. There are no further vesting rights going forward. The fair value of the equity instruments granted represent debt raising and origination fees as well as other unidentifiable goods or services representing transaction costs incurred in issuing the Caleo loan. These costs and fees are treated as an integral part of the effective interest rate of the loan. Refer to Note 9 where disclosure relating to the loan has been made.

## 14. Comments from The Board

### REVIEW FOR THE PERIOD

The group has seen a sharp 91% increase in revenue over the comparative periods. This is directly attributable to the growing debtors book in Elite. Management is confident with additional funding it is raising, through its groups platform and origination capabilities that it will continue to grow revenues. Management is also in the process of implementing other revenue streams to compliment the revenue growth across the group.

While cost comparative periods under review are normally simple to compare, there are a number of key items to highlight from last year due to covid that have an impact on the review. The first 6 months of the 2020 year ending August 2020 included assistance from various stakeholders (Landlords, UIF and other creditors) who afforded us assistance during the initial peak of the pandemic. This included delaying various costs and, in some instances, a permanent non-payment was afforded. This has the effect of creating timing and factual differences across the comparative periods. During the 6 months ended August 2020, the group was afforded the following :

**Employee Costs** (increase employee base 2021 R4.3m (2020: R3.1m).

§ TERS assistance of approximately R560k which offset the employee costs for August 2020.

**Other Operating Costs** (increase in operating costs 2021 R5.6m (2020: R4.4m).

§ Property rentals were deferred in the lockdown period and repaid in the 6 months after August 2020.

§ Audit, Consulting and Reporting costs of close to R733k we deferred into the next six months due to impact of Covid and the first lockdown which resulted in the delay of the February 2020 reporting by three months.

In addition during the 6 months ended August 2021, the group has been gearing up for the increase in revenues forecasted and has increased the groups capabilities (and thus cost base) to accommodate the increased revenues. This includes raising additional capital to grow the debtors book resulting in an increase in finance costs R2.3m (2020: R818k).

The above costs are largely fixed in nature and therefore the continued revenue growth will be accompanied by lower increases in variable costs. This will result in closing the loss without the resultant direct increase in costs.

Management remain positive on our core business capabilities and we believe that the Group is well positioned for the future.

Management will continue to grow revenues and increase value for all stakeholders

## Notes to the Consolidated Interim Financial Statements continued

---

There has been no changes to the board for the period.

### GOING CONCERN

These results have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

Certain material uncertainties relating to events or conditions which may cast doubt upon the ability to continue as a going concern were outlined in note 1.18. of the Annual Financial Statements for the year ended 28 February 2021. The following actions were implemented to reduce these uncertainties:

*Risk - Afdawn's ability to pay ongoing operational expenses.*

#### Action taken

Afdawn continues to raise additional funding as and when required from external parties and supportive shareholders. Management believes that the group should be generating positive cash flows within the next 12 months".

*Risk - Covid 19 has not materially changed the business/Going concern of the business. Elite's assessment showed that its client base is predominantly essential workers who were not materially affected directly by Covid and its economic impact).*

#### Action taken

Elite has continued to grow its debtors book with additional funding and has maintained its core credit policies leading to low levels of non-performing loans.
